**Special Hosted Group Trip
October 28-November 5, 2011**

Luxury Amazon Peacock Bass Fishing

A unmatched combination of fine luxury yachts, well equipped bass boats and the most experienced fishing guides in South America. **Hooked on Adventures, LLC** is the exclusive agent of the **Santana Luxury Yacht Line** which has served such notable guests as the Rockefeller and Ford families. Rather than operate out of a fixed base camp, the yachts and her guides spend 6 fishing days probing the farthest reaches of The Rio Negro, The Rio Madeira, and their tributaries in search of trophy peacock bass. The Rio Negro produced the current IGFA all-tackle world record Peacock Bass at 27 pounds and is considered to have the best Peacock Bass fishing in the world. It is rare not to catch a Peacock Bass that weighs 15 pounds or better. The best fishing for large Peacock Bass is found in clear, but dark (tannin-stained) waters, referred to as blackwater. There are numerous blackwater rivers in this region, the largest being the Rio Negro. Santana yachts can navigate 50-80 miles per night to find the best fishing locations.

Anglers are paired two to a 17-1/2 ft. boat powered by a Suzuki 50 hp accompanied by an experienced Brazilian guide. These boats are designed for conventional and flycasting with stable front and rear casting platforms, comfortable fishing chairs, trolling motors, marine radios, durable tackle, refreshments and other amenities. Daytime temperatures range 72-79° F. You can fish all day or return to the mother ship for a hot lunch each day. Non-fishing guests enjoy daily eco-tours, village tours, jungle hikes, bird watching, alligator spotting and more at no additional charge.

Upon arrival, you will be greeted and transfer to your hotel to rest before your morning charter flight to the yacht and 6 great days of fishing. Roundtrip charter flights are included in the trip package.

Oct. 28-Nov. 5, 2011
Trip Cost: \$5,950 per person
